

Sprint 2 Report

OrgPoint

Actions to stop doing

Reiterating points during the meeting and instead summarizing group progress at the beginning. This was pointed out for the sprint and was occasionally implemented, for the 3rd sprint we should do this every meeting.

Actions to keep doing

Group working meetings were a great way to progress on goals and keep everyone on the same page. Also it prevented people from becoming stuck on a part of the project and was helpful with debugging.

Actions to start doing

Keep emphasizing duties. This was worked on over sprint 2 and was extremely efficient. By giving each member a duty or focus, it helps everyone keep progressing working towards a goal.

Work completed

1. User settings page implementation
2. Terms of service merging
3. Profiles photos implementation
4. CSV/XL/XLSX uploader implementation
5. Mailer implementation
